## AGREEMENT

These Terms and Conditions are made effective by the customer set forth on the reverse hereof ("Dentist") submitting this form ("Agreement") to LSK121 Oral Prosthetics, an Illinois Corporation ("LSK121"). The ("Dentist") agrees to a contract for the sale and delivery of the specially fabricated goods mentioned herein ("Goods").

- Dentists agree to pay in full the stated price of Goods within 45 days after the date of the statement. All balances remaining past such date will incur a 2% late service charge per month. Accounts not paid within the stated terms or accounts above their credit limit will be subject to C.O.D. status. Keep in mind, larger cases are billed in stages and payment is generally due before cases are completed. This is based on the billing/statement date and there will be no exceptions.
- Any and all attachments, including but not limited to, prescriptions, modifications, diagrams, photographs, models or instructions of any sort, will be incorporated into this Agreement, unless LSK121 objects. Should the Dentist cancel any order submitted before shipment, the Dentist shall pay for any loss or damage to LSK121.
- Dentists must completely clean all blood and saliva from all materials used in the mouth, and must disinfect all of these items before sending them to LSK121 and again when returned from LSK121 before placement in the patient's mouth.
- Cases are considered accepted by the Dentists upon delivery. Dentists have the right to request remakes and repairs according to the original Rx up to 1 year from delivery date on issues that are determined to be caused on the lab side, at our discretion. Other forms of acceptance shall include, but are not limited to, cementing of Goods in the mouth, requesting shade changes or modification of preparations, bites or designs. After the acceptance period the case will need to be evaluated and charges may apply to remakes/adjustments. This policy only applies to remakes and adjustments. There will be absolutely no returns or refunds on custom prosthetics made from the request of a Dentist's Rx.
- Should the Dentist request a remake of Goods, the Dentist agrees to resubmit all original Goods including, but not limited to, original impressions, models and restorations to the lab. LSK121 must have the original Goods to evaluate possible restoration replacement or repair, the cost to Dentist, and to determine if original Goods are repairable or require remake of Goods. If any portion of the Goods, including materials, is not returned to the lab, the full stated price of Goods will be due to LSK121. Should the Dentist return nonconforming Goods for any reason, Dentist must give LSK121 the opportunity to provide conforming Goods within a reasonable timeframe.
- These terms and conditions outlined in this document govern all cases in our lab, regardless of the Rx form used to submit each individual case. No other Rx forms submitted to our lab can supersede these terms and conditions.
- Compliance with the Illinois Dental Practice Act: Sec. 5b of the Illinois Dental Practice Act requires a licensed dentist who employs or engages services of a person, firm, or corporation to construct or repair prosthetic appliance, to furnish a written work order on a form approved by the Illinois Department of Registration and Education which shall contain: (1) name and address of person, firm or corporation to which work order is directed, (2) patient's name or identification number, and if number is used, patient's name must be written upon duplicate copy retained by dentist, (3) date on which work was written, (4) description of work to be done, including diagrams if necessary, (5) specification of type and quality of materials to be used, (6) signature of dentist and number of their license. Dentist and laboratory must retain their respective copies of work orders for 5-7 years for inspection at any reasonable time by The Department of Registration and Education or its duly authorized agents. Failure of dentist to comply in any given case is a misdemeanor, and license may be revoked or suspended. Failure of laboratory to comply is a misdemeanor.
- Sec. 5b(3) of the Illinois Dental Practice Act provides: "If the person, firm or corporation receiving a written order from a licensed dentist engages another person, firm, or corporation (hereinafter referred to as 'sub-contractor') to perform some of the services relative to such work order, they shall furnish a written sub-work order with respect thereto on forms prescribed by the Department of Registration and Education which shall contain: (a) The name and address of the sub-contractor. (b) A number identifying the original work order, which number shall be endorsed on the work order received by the licensed dentist. (c) The date on which the sub-work order was written. (d) A description of the work to be done by the sub-contractor, including diagrams if necessary. (e) A specification of the type and quality of the materials to be used. (f) The signature of the person, firm, or corporation issuing the sub-work order. The sub-contractor shall retain the sub-work order and the issuer thereof shall retain a duplicate copy attached to the work order received from the licensed dentist for inspection by the Department of Registration and Education or its duly authorized agents for a period of 5-7 years in both cases. Failure of laboratories to comply is a misdemeanor.
- The parties to this Agreement shall be governed by and the Agreement shall be construed in accordance with the laws of the United States and the State of Illinois without giving effect to the conflicts of laws provisions thereof. The parties further agree that any and all actions that may arise under this Agreement shall lie exclusively in the Courts of the United States in the State of Illinois located in the County of DuPage, State of Illinois.
- If any terms of this Agreement are held by a court of competent jurisdiction to be invalid or unenforceable, then this Agreement, including all of the remaining terms, will remain in full force and effect as if such invalid or unenforceable terms had never been included.
- The Dentist agrees to pay all late service charges, legal and collection costs in the event of non-payment or lawsuit, including reasonable attorney fees.
- The Dentist agrees to sign an official LSK121 Oral Prosthetics laboratory slip, which includes his License Number, to be kept on file with the aforementioned laboratory. This will serve as "Permission Granted" for all work to be completed in the future, regardless of which generic, digital or other lab's prescription slip the Dentist chooses to use for his case work.
- New Dentists must send their Credit Card Information with their first case.

## WARRANTY POLICY

The warranty period begins after the case is shipped from our lab the first time. The warranty period will extend to no later than the times listed below. Please note any design or material changes will be subject to additional fees.
